RE: Request to Close Consent Order SRD-130
United Technologies Corporation/Pratt & Whitney Division
400 Main Street, East Hartford, Connecticut

Dear Mr. Hamel:

Please accept this letter as our formal request to close Consent Order SRD-130. Consent Order SRD-130 was authored with the objective of regulating the soil and sediment remediation activities in and immediately surrounding Willow Brook and Willow Brook Pond. As you are aware, the remediation activities were completed in 2002 and we have been implementing a program of maintenance and groundwater monitoring since that time. As detailed in prior correspondence, it has been our opinion that the remediation activities should be formally recognized by the Department as having been completed and, therefore, the order closed.

In response to your October 18, 2010 correspondence, we acknowledge by this letter that the ongoing monitoring and maintenance activities associated with the remedial actions conducted pursuant to SRD-130: (1) are being performed pursuant to a Department Approved Remedial Action Plan; and (2) will continue to be performed as part of our site-wide corrective action obligations pursuant to the RCRA Part B Permit DEP/HWM-043-061. Specifically, the ongoing groundwater monitoring will be conducted in accordance with the modified program approved by the Department on August 12, 2010 until such a time as the Department provides a written approval to modify or discontinue the monitoring. Once the Consent Order is closed, future monitoring and maintenance reports will reference the RCRA Part B Permit and will continue to be submitted to the Department as part of the Corrective Action Program Annual Report/Update by January 31 of each calendar year.

We appreciate your efforts and the efforts of others within the Department to achieve this important milestone. Should you have any question or comments or require any additional information, please do not hesitate to contact Lauren Levine at 860-728-6520.

I have personally examined and am familiar with the information submitted in this document and all attachments thereto, and I certify, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining the information, that the submitted information is true, accurate and complete to the best of my knowledge and belief. I understand that any false statement made in the submitted information is punishable as a criminal offense under §53-a-157b of the Connecticut General Statutes and any other applicable law.

Sincerely,

**UNITED TECHNOLOGIES CORPORATION
